

# Conference System

## Reliable Conference System for Confidential Meeting

### CLIENT NAME:

### Hong Kong Hospital Authority

### CLIENT DESCRIPTION:

The Hospital Authority is a statutory body established under the Hospital Authority Ordinance in 1990. We have been responsible for managing Hong Kong's public hospitals and their services to our community since December 1991. They are accountable to the Hong Kong Special Administrative Region Government through the Secretary for Food and Health, who also formulates health policies and monitors our performance.

### LOCATION:

Conference Hall, 2/F, Hospital Authority Bldg., 147B Argyle Street, Kowloon

### PROJECT DESCRIPTION:

Latest Bosch conference system provides clear sound with good appearance as well as sound recording function, to get people interacting and communicating effectively. It offers versatility, high audio quality and data transmission while providing completed control over conference proceedings.

The system provides basic microphone management, delegate identification and registration, electronic voting, information distribution as well as display.

### EQUIPMENT:

#### Conference System

- Bosch Mic Connection Panel
- Bosch Flush Mic Control Panel
- Bosch Voting Unit
- Bosch Flush Channel Selector
- Bosch Dual Delegate Interface
- Samsung 19" LCD Monitor
- Bosch Flush Priority Panel

Overview of conference hall in Hospital Authority
